

Your child's school is using Reading Plus® to help students become better readers. The Reading Plus® system uses the computer as a teaching tool. The system includes a number of programs to improve reading skills. As your child works in Reading Plus®, he or she will begin to read faster and understand more of what is being read. The Reading Plus® system meets each student's needs, so your child will always get the right instruction to improve reading. Your child also will enjoy interesting stories while developing the reading skills needed to succeed in upper grades and beyond.

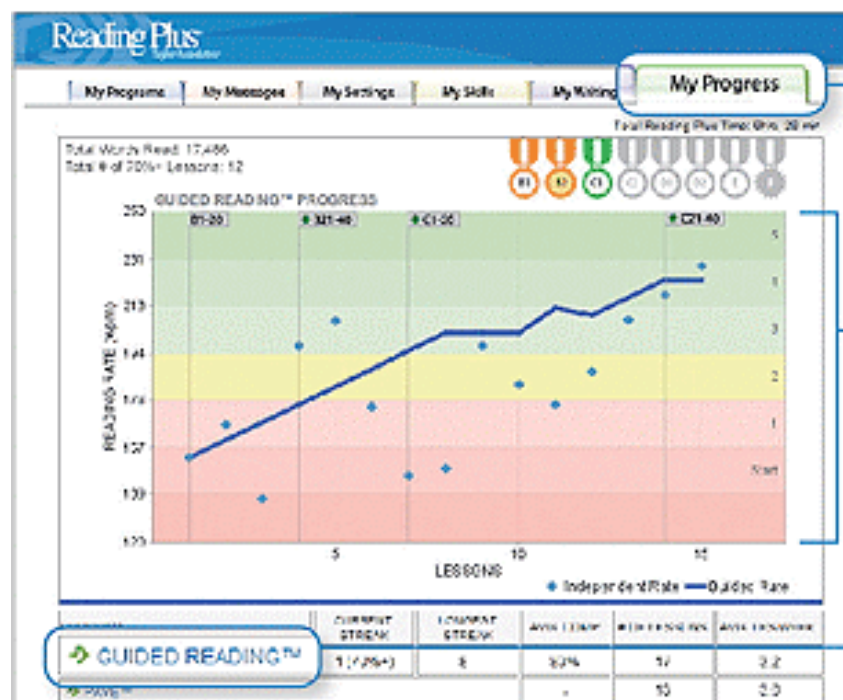

Your child can use the Reading Plus® system on your home computer. Each session lasts 30-45 minutes. Follow these easy steps to log in to Reading Plus®. Please contact me if you need help or have any questions.

### How to Log In:

- Step 1:** Go to [www.readingplus.com/users](http://www.readingplus.com/users)
- Step 2:** Click on Student Login button
- Step 3:** Enter Site Code: **whisperingoak**
- Step 4:** Select Class: **(Teacher's name)**
- Step 5:** Select your name  
& Enter Password: **\_Birthdate\_\_**

### How to Monitor Your Child's Progress:

Click on *My Progress* tab after your child logs in to review your child's progress.

The graph indicates your child's improvement in reading rates. The solid line shows your child's guided reading rates (rates achieved with program assistance). The dots show your child's independent reading rates.

Click on program links to review detailed progress records.

Visit [www.readingplus.com/support](http://www.readingplus.com/support) if you have technical questions about how to get started.
